

AMENDMENTS TO THE CLAIMS

Please amend the claims as follows:

1. (Currently Amended) A system for accessing a computer-readable medium device, comprising:
 - ~~a computer-readable medium; and~~
 - ~~apparatus for:~~
 - ~~to a computing device, according to a predetermined command set behavior of the computer-readable medium device, outputting a description of first and second features of the computer-readable medium device, the first feature being other than an identification of the computer-readable medium device, and the second feature being an indication of whether the computer-readable medium device executes a predetermined write strategy;~~
 - ~~from the computing device, receiving a signal; and~~
 - ~~in response to the signal, accessing the computer-readable medium, according to the first and second features.~~
 - a drive initially accessed by the computing device;
 - means for communicating information from the drive to the computing device in response to a request from the computing device;
 - and
 - in response to the information, means for configuring a driver for managing access by the computing device to the drive.
2. (Currently Amended) The ~~device~~ system of Claim 1 wherein the information describes features of the drive. ~~apparatus is for:~~
 - ~~from the computing device, according to the predetermined command set behavior of the computer-readable medium device, receiving a request for~~

~~the description; and~~

~~to the computing device, outputting the description in response to the request.~~

3. (Currently Amended) The ~~device~~ system of Claim 1 wherein the computer-readable medium is a compact disc.
4. (Currently Amended) The ~~device~~ system of Claim 3 wherein the computer-readable medium is a compact disc read-write medium.
5. (Currently Amended) The ~~device~~ system of Claim 3 wherein the computer-readable medium is a compact disc read only memory medium.
6. (Currently Amended) The ~~device~~ system of Claim 1 wherein the computer-readable medium is a digital video disc medium.
7. (Currently Amended) The ~~device~~ system of Claim 6 wherein the computer-readable medium is a digital video disc read-write medium.
8. (Currently Amended) The ~~device~~ system of Claim 6 wherein the computer-readable medium is a digital video disc read only medium.
9. (Cancelled).
10. (Cancelled).
11. (Currently Amended) A method for accessing a computer-readable medium device, comprising:
~~a computer-readable medium; and~~

apparatus for:

~~to providing a computing device; according to a predetermined command set behavior of the computer-readable medium device; outputting a description of a feature of the computer-readable medium device, the feature being a digital audio extraction speed of the computer-readable medium device;~~

~~from the computing device, receiving a signal; and~~

~~in response to the signal, accessing the computer-readable medium, according to the feature.~~

coupling a drive for accessing the computing device;

communicating information from the drive to the computing device in response to a request from the computing device; and

configuring a first driver for managing access by the computing device to the drive.

12. (Currently Amended) The device of Claim 11 wherein the method further comprises: ~~apparatus is for:~~

~~from the computing device, according to the predetermined command set behavior of the computer-readable medium device, receiving a request for the description; and~~

~~to the computing device, outputting the description in response to the request.~~

querying the drive by for a feature code;

retrieving the first driver in response to the drive returning the feature code;

querying the drive for a performance feature; and

configuring the first driver using the performance feature to create a second driver.

13. (Currently Amended) The ~~device~~ method of Claim 11 wherein the computer-readable medium is a compact disc.
14. (Currently Amended) The ~~device~~ method of Claim 13 wherein the computer-readable medium is a compact disc read-write medium.
15. (Currently Amended) The ~~device~~ method of Claim 13 wherein the computer-readable medium is a compact disc read only memory medium.
16. (Currently Amended) The ~~device~~ method of Claim 11 wherein the computer-readable medium is a digital video disc medium.
17. (Currently Amended) The ~~device~~ method of Claim 16 wherein the computer-readable medium is a digital video disc read-write medium.
18. (Currently Amended) The ~~device~~ method of Claim 16 wherein the computer-readable medium is a digital video disc read only medium.
19. (Cancelled).
20. (Cancelled).
21. (Cancelled).
22. (Cancelled).
23. (Cancelled).
